

SURFTECH

2025 PRODUCT

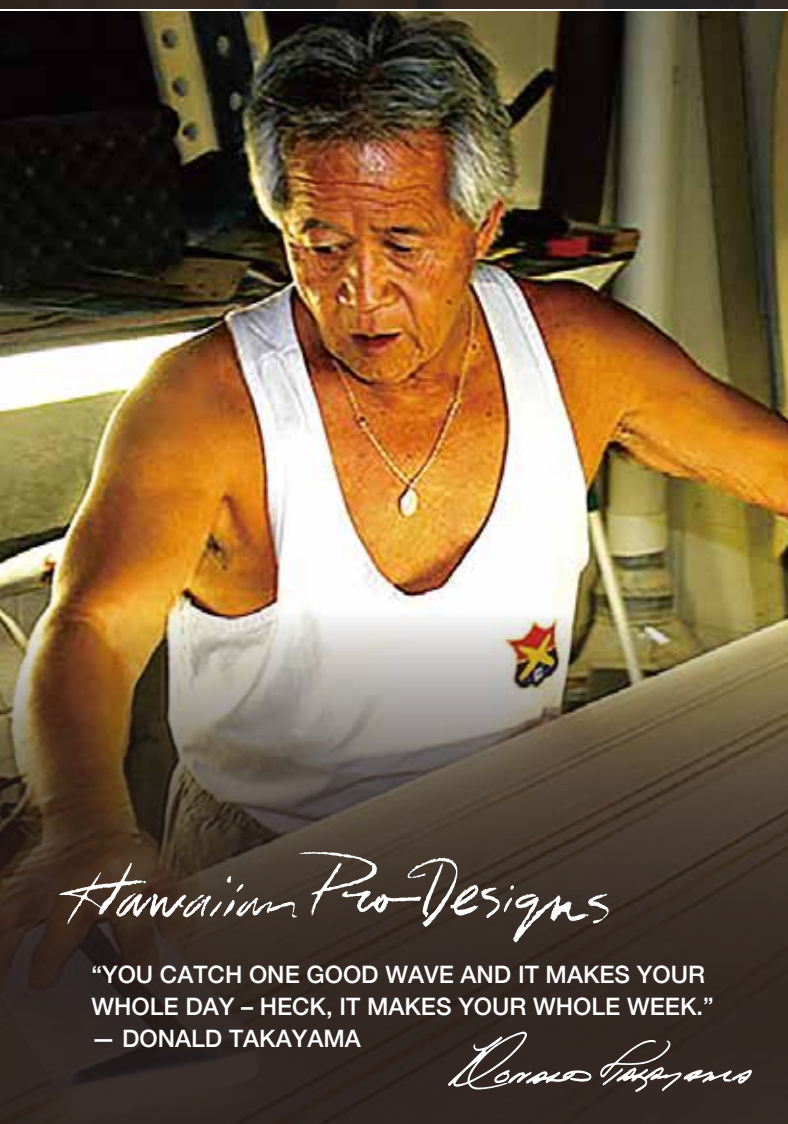

Timmy Patterson

Timmy Patterson is a renowned surfboard shaper who has made an indelible mark on the world of surfing. With a passion for crafting exceptional boards, Timmy's dedication to his craft has propelled him to the forefront of the industry.

Gerry Lopez

"WAVES KEEP COMING, THAT'S THE ONE THING YOU CAN COUNT"—GERRY LOPEZ

Hawaiian Pro-Designs

"YOU CATCH ONE GOOD WAVE AND IT MAKES YOUR WHOLE DAY – HECK, IT MAKES YOUR WHOLE WEEK."
— DONALD TAKAYAMA

Donald Takayama

THE FATHER OF MODERIN LONGBOARDING.
"I HAVE SHAPED & GLASSED OVER 33,000 SURFBOARDS TO DATE." — ROGER HINDS

WHAT IS THE CHANGE GOING TO CREATE?
THAT' S THE FUN OF IT." - WAYNE RICH

"A RARE COLLECTIVE OF MILDLY DERANGED BUT
HIGH-POWERED MISFITS"

THE AUSTRALIAN DUO BEHIND THE IRREVERENT
SURFBOARD BRAND/ FAMILY OF CREATIVE
ENTHUSIASTS TALK SURF.

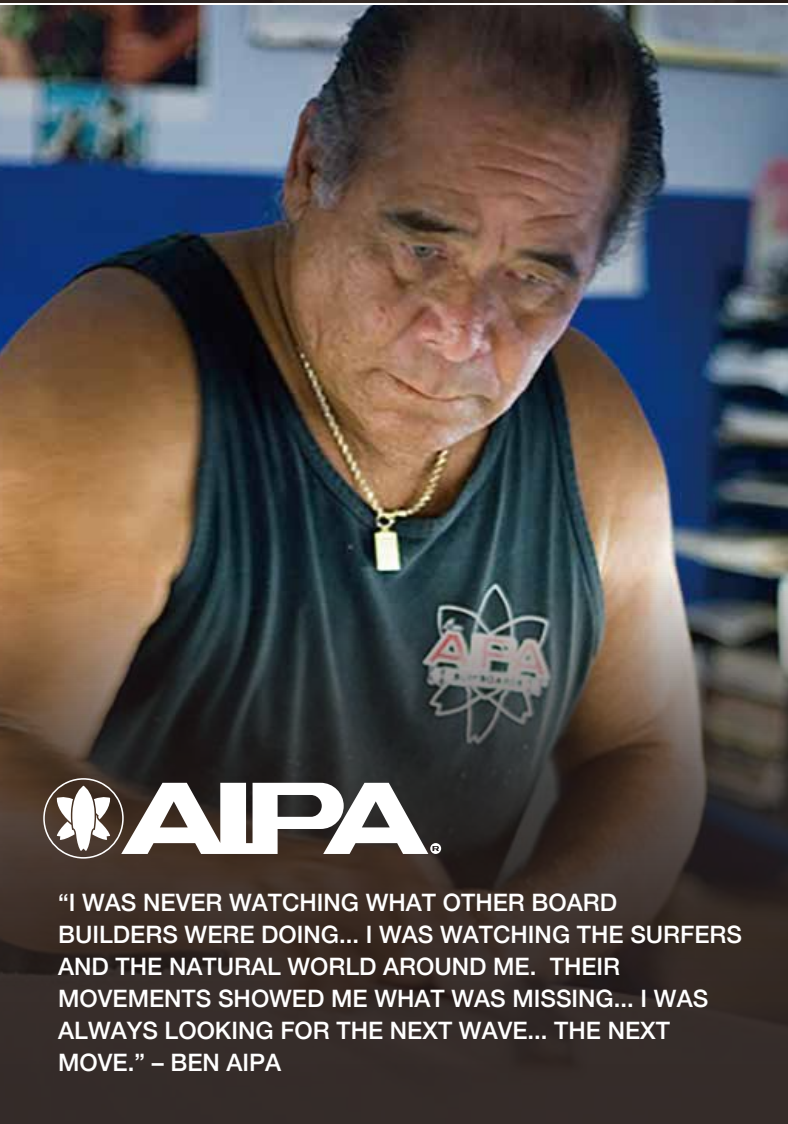

Who are you, where are you located?

Chris Chong and Dave Howell of MISFIT SHAPES. We are
based between the Northern Beaches of Sydney and the
Northern Rivers of NSW.

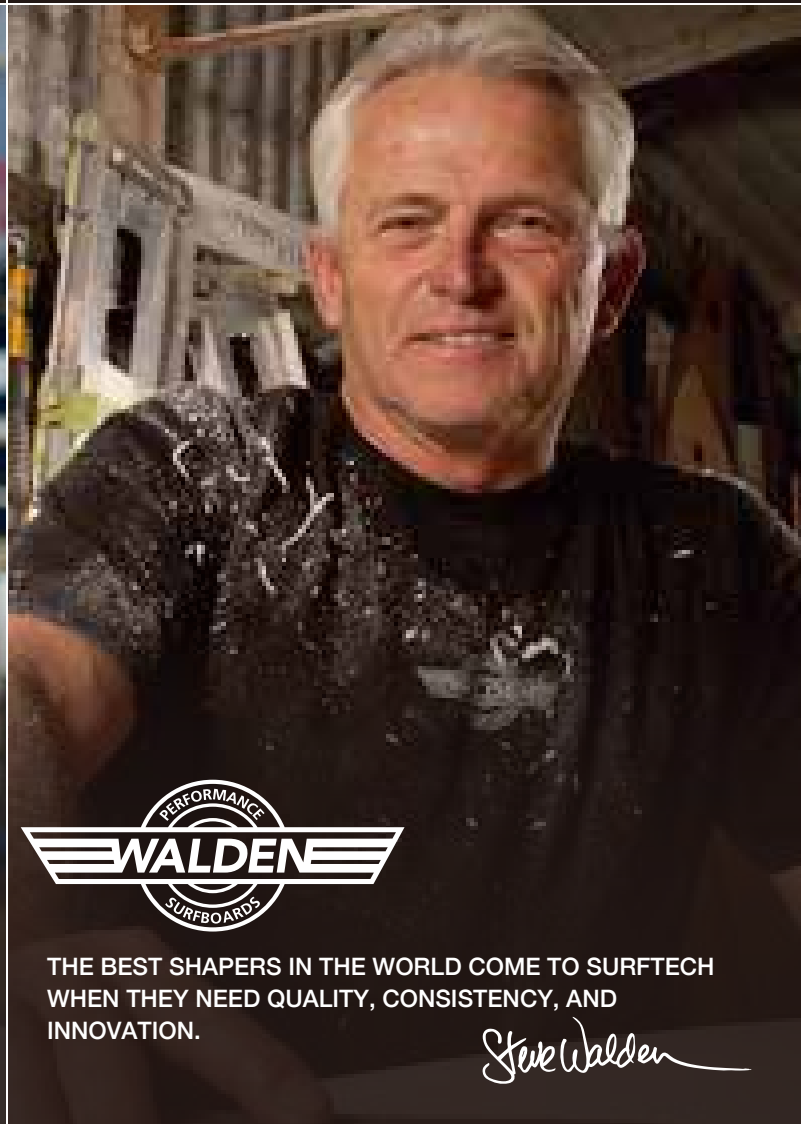

M/SF/T

CHRIS CHONG & DAN WATKINS

"I WAS NEVER WATCHING WHAT OTHER BOARD
BUILDERS WERE DOING... I WAS WATCHING THE SURFERS
AND THE NATURAL WORLD AROUND ME. THEIR
MOVEMENTS SHOWED ME WHAT WAS MISSING... I WAS
ALWAYS LOOKING FOR THE NEXT WAVE... THE NEXT
MOVE." - BEN AIPA

THE BEST SHAPERS IN THE WORLD COME TO SURFTECH
WHEN THEY NEED QUALITY, CONSISTENCY, AND
INNOVATION.

Steve Walden

FUSION HD CONSTRUCTION

1. FUSED CELL EPS CORE

// Fused-cell EPS core provides more response + flotation

2. CLEAR HD-EPOXY RESIN

// Epoxy resin system with high thermo-mechanical performances

3. FULL BIAX DECK PATCH (45° / -45°)

// The Biax fiberglass distributes power + protects from dings

4. HIGH-QUALITY E-GLASS FIBERGLASS

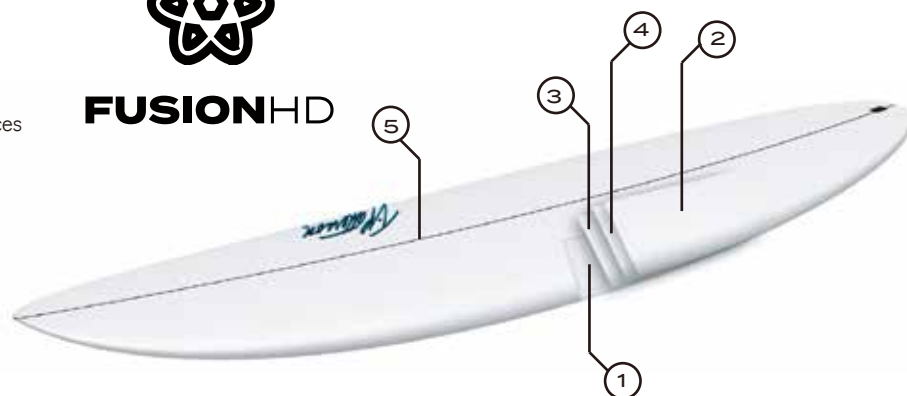

// E-glass has the highest strength-to-weight ratio available

5. WOOD STRINGER

// Distributes power + adds pop + adds break strength

6. HAND-FINISHED

// Machine-shaped, hand-laminated, and hand-finished

FUSION PRO CONSTRUCTION

1. FUSED CELL EPS CORE

// Fused-cell EPS core provides more response + flotation

2. CLEAR HD-EPOXY RESIN

// Epoxy resin system with high thermo-mechanical performances

3. FULL BIAX DECK PATCH (45° / -45°)

// The Biax fiberglass distributes power + protects from dings

4. HIGH-QUALITY E-GLASS FIBERGLASS

// E-glass has the highest strength-to-weight ratio available

5. CARBON STRINGER

// Distributes power + adds pop + adds break strength

6. HAND-FINISHED

// Machine-shaped, hand-laminated, and hand-finished

CARBON CONSTRUCTION

[CARBON]

1. FUSED CELL EPS CORE

// Closed-cell EPS core provides more response + flotation

2. CLEAR HD-EPOXY RESIN

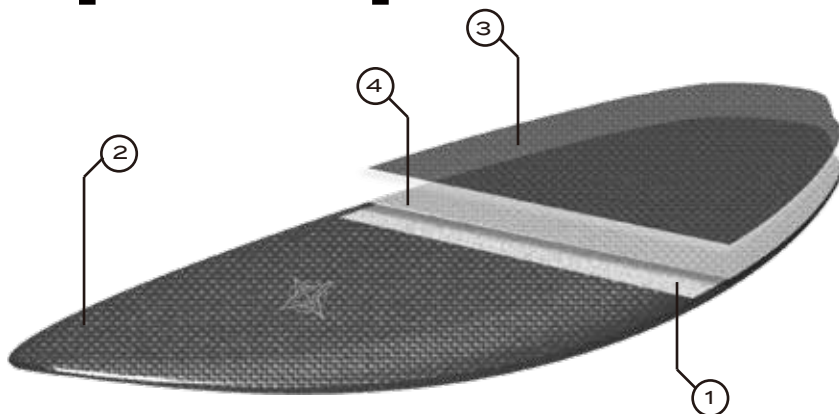

// Epoxy resin with high thermo-mechanical performances

3. HIGH QUALITY CARBON FIBER

// Carbon fiber has an unmatched strength to weight ratio among all engineered technical reinforcements.

4. ULTRA FINE E-GLASS

// Each board is capped in an ultra fine, lightweight layer of E-glass as a final protective seal

NATURAL FIBER CONSTRUCTION

NATURAL
FIBER
TECHNOLOGY

1. EPS CORE

// Fused cell EPS core provides more response + flotation

2. CLEAR HD-EPOXY RESIN

// Epoxy resin with high thermo-mechanical performances

3. NATURAL FLAX FIBER REINFORCEMENT

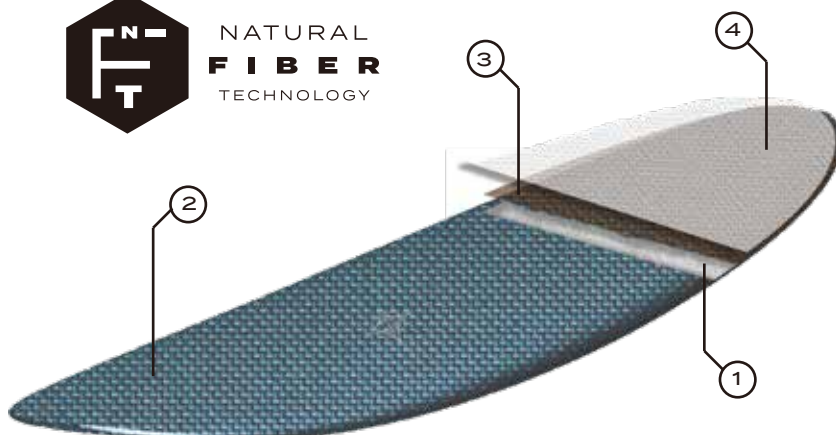

// Flax fiber provides dampening to give the boards a natural feel. As well as being biodegradable and renewable.

4. ULTRA FINE E-GLASS

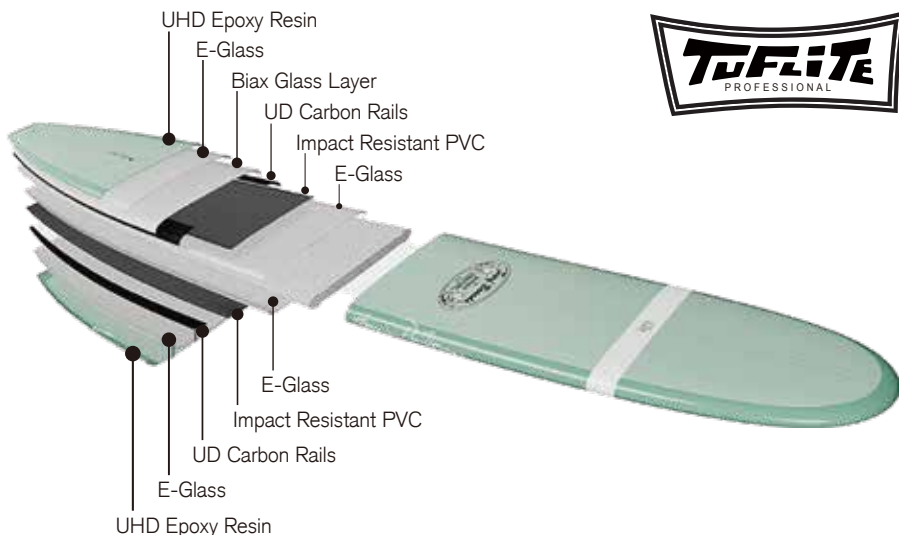

// Each board is capped in an ultra fine, lightweight layer of E-glass as a final protective seal.

5. COLOR TINT

// Beautiful resin tint for premium finish

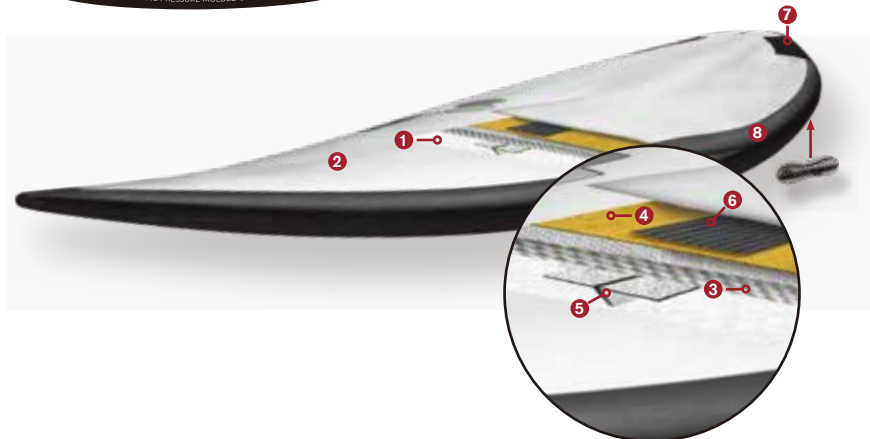

TUFLITE PROFESSIONAL CONSTRUCTION

Professional-level quality should be available to all surfers. Tuflite Professional is the result of 35 years of testing and multiple iterations of Surftech's innovative molded construction. An ultra light fused core is molded for perfect replication of shape every time. The light core allows us to add extra protective layers and manipulate the flex of the board. The lay up consists of a high density deck and bottom layer inserted into a recess in the board, combined with unidirectional carbon rails plus multiple layers of e-glass and biaxial. The result is a drastic improvement in both break strength as well and impact resistance. The process of omega glassing, wrapping and overlapping the recess and rails of the board, is a feat of engineering allowing for added strength without adding weight. Tuflite Professional is the perfect blend of durability and engineered performance, built to elevate your surfing.

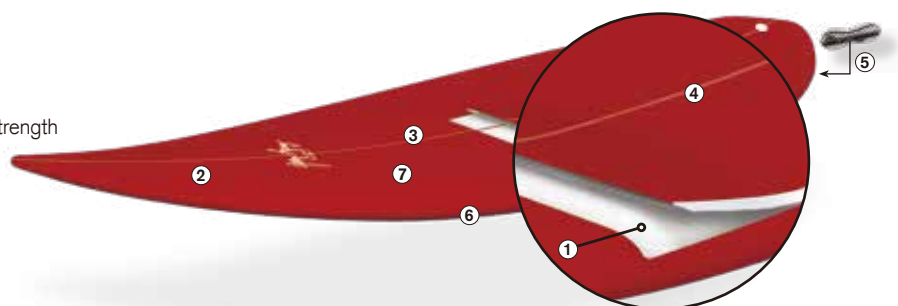

TUFLITE CONSTRUCTION

- 1. Fused Cell EPS Core**
// Closed cell EPS core provides more response + Flotation
- 2. GreenPox® Resin**
// The latest innovations in bio-based Epoxy chemistry
- 3. 2x Layers Fiberglass**
// E-glass has the highest strength to weight ratio available
- 4. Micro-Sandwich Veneer**
// Wood Veneer creates natural flex + adds break strength
- 5. Composite T-Stringer(s)**
// T-Stringers add power distribution + adds break strength
- 6. Carbon Stringer**
// Distributes power + protects from dings + adds break strength
- 7. Carbon Tail Patches**
// Distributes power + protects from dings + adds break strength
- 8. Reinforced Rails**
// Fiberglass reinforced rails enhances performance + durability
- 9. Exclusive Sandwich Technology**
// Surftech Tuflite boards are molded with exclusive methods

FUSION TRUERIDE CONSTRUCTION

- 1. PU Core**
// High-density polyurethane core for performance and feel
- 2. PE Resin**
// Advanced polyester resin for strength and flex
- 3. 6oz Fiberglass w/4oz Patch**
// E-glass has the highest strength-to-weight ratio
- 4. Wood-Ply Stringer**
// Natural wood fibers creates a natural flex and adds break-strength
- 5. FCS II Fin Boxes**
// Takes just seconds to insert and remove the fins
- 6. Full Biax Deck Patch (45° / -45°)**
// Adds strength and durability plus tint creates a unique look
- 7. Gloss and Polish Finish**
// High gloss finish to turn some heads on your paddle out

PRIMATEK CONSTRUCTION

- HIGH DENSITY EPS CORE**
// Lively response that distributes vibration equally for predictability
- CLEAR HD-EPOXY RESIN**
// Epoxy resin system with high thermo-mechanical performance
- 1 X LAYER OF E-GLASS**
// Strong and resistant to denting
- 1 X LAYER OF BIAX GLASS**
// Gives multi-direction strength while maintaining a lively feel.

Whether you're a primitivist à la Gauguin or a minimalist like Mies Van der Rohe we know you believe the essence of a thing is its true value and that kitsch accoutrement is for the birds. You know that real creative expression happens on the wave and what you need is great design and purist performance. Bienvenu à Primatek. By keeping the construction simple we've found our boards built in Primatek perform as an extension of surfers' instincts. Intuitively connecting your imagination and ability in a creative collision of a primal past and an ethereal future, Primatek is the blank slate and firm foundation for you to build your masterpiece.

Timmy Patterson is a renowned surfboard shaper who has made an indelible mark on the world of surfing. Fueled by a desire to create the perfect surfboard, Timmy embarked on a lifelong journey of honing his skills and pushing the boundaries of design. With meticulous attention to detail and an unwavering commitment to quality, his boards have become sought after by surfers of all levels, from amateurs to world champions. As a testament to his skill and contribution to the surfing world, Timmy Patterson's boards can be found under the feet of countless surfers who trust in his craftsmanship to enhance their surfing experience. With an unwavering commitment to excellence, Timmy continues to shape the future of surfboard design, leaving an indelible mark on the waves and the hearts of surfers worldwide.

"WHAT IS THE CHANGE GOING TO CREATE? THAT' S THE FUN OF IT." - Wayne Rich

Wayne Rich is a world-renowned surfboard shaper who has been designing boards for over 40 years. He is known for his progressive designs, attention to detail ,and quality craftsmanship. Surftex is honored to partner with Wayne to produce and distribute three models of surfboards built in two different constructions. The new boards, the Wildcard 3, the Singularity, and the Checkmate, are all proven designs built to perform in a variety of conditions, from small waves to large swells.

Born and raised in Hermosa Beach, CA Wayne began shaping under Dan Bendiksen at Bing Surfboards, from there he continued on to become part owner of Jacobs surfboards, and then eventually started his own label. Wayne is a 2x Boardroom show winner whose respect for tradition is only matched by his need to innovate.

"A RARE COLLECTIVE OF MILDLY DERANGED BUT HIGH-POWERED MISFITS"

Misfit Shapes represents an authentic response to an era of change, a 'surf' stemmed movement that allows art, design and individuality to co-exist within a realm more commonly dominated by conformity and observation. We are not bound by a single leader or manifesto, but rather a bold commitment to pushing the limits of this well-oiled machinery of surf. The result is a rare collective of mildly deranged but high-powered misfits, potentially dangerous cultural agitators, and just about every other kind of MAD MIND.

If this is all a bit too real, that's fine, we can't please everyone because if we did, we'd end up catching something. But if you are looking to escape the rotating door of normality, please, come inside.

"YOU CATCH ONE GOOD WAVE AND IT MAKES YOUR WHOLE DAY – HECK, IT MAKES YOUR WHOLE WEEK." — DONALD TAKAYAMA

Donald Takayama's legacy is a combination of the world's best boards, best surfers and best waves, making his boards some of the most sought after in the surfing world. Takayama was famous for his progressive designs that combined both traditional and high-performance aspects into every board made. As a result, the best surfers chose his boards to bring their surfing to the next level. Donald Takayama and Surftex worked together for over 20 years before his passing, with a relationship built on trust and a commitment to produce quality products that compliment the designs he so passionately created.

RENAISSANCE 9'4"

RENAISSANCE 10'0"

Roger Hinds shaping career has spawned four decades and encompassed the multi-faceted evolution of the short board. From his early days of stripped down long boards during the transition era, to refining his skills under the tutelage of the likes of Ed Angulo, Jeff Edwards and Kent Smith. 70' s North Shore soul with Country Surfboards and Lightning Bolt and team riders spanning the era' s and all disciplines from Jock Sutherland and Mike Armstrong to Long board World Champions Rusty Keaulana and Taylor Jensen. Production shaping for the likes of Blue Hawaii, Russ K, Harbour, Hobie and Weber, as well as head shaper for Bear USA.

His attention to detail has lead to some of the most popular plugs for Clark Foam and US Blanks. He won of The Icons of Foam shape-off back to back in 2014 & 2015 at The Boardroom Show first honoring Ben Aipa then Rusty Preisendorfer. He came in second at the Ultimate Craftsman Project at the same show losing by only one tenth of a point. That same detail is reflected in start to finish shape, glass, color and polish of impeccable quality. Roger Hinds lives the art of surfboard construction. – Randy Rarick

"MY DAD WAS ALWAYS LOOKING FOR THAT NEXT STEP, AND THAT' S WHY PARNTERING WITH A COMPANY LIKE SURFTECH, WHO IS ALWAYS INNOVATING IS PERFECT." - Duke Aida

Aipa invites all generations of the inspired to experience the blend and balance of an authentic surf legacy and connect on a journey to imagine and live "The Next Move" .

Surftech is honored to be a part of Aipa's next move. Our product collaboration aims to, in the words of Ben Aipa, "Make a statement, emphasize design, but always have blend and balance." We feel confident our range from AIPA, built-in cutting edge Dual Core and Fusion HD constructions, lives up to and maybe even exceeds Ben's vision.

The Father of Modern Longboarding

Steve Walden shaped his first surfboard in 1961, at age 13, and never looked back. Eight years later, the native Southern Californian opened his first board factory and store in Huntington Beach, then moved to the North Shore of Oahu in 1972, where he made a name for himself as a prolific longboard shaper. While the rest of the surfing world was fixated on short single fins, Walden continued to faithfully hone his longboard designs. Over the years he shaped for prestigious labels like Lightning Bolt, Local Motion, HIC, and Channel Islands, but it was always his own boards that set him apart. By the early 80s, Walden returned to California where he unveiled his wildly successful Magic Model with its radical rocker, down-turned rails, and super-fast Turbo Hull bottom contour. With arguably the most advanced and high-performance longboard on the market, Walden was uniquely positioned to capitalize on the resurgence of longboarding in the late 80s and 90s. To date, Walden estimates he's personally shaped more than 20,000 boards, and in 2004, he teamed up with Global Surf Industries to distribute his shapes and expand the Walden Surfboards brand worldwide.

BARK

水の上で楽しむ様々なボードを手掛けるJoe・Bark（ジョー・バーク）。特にパドルボードでは世界のトップ選手たちからも絶大の信頼を得ており、様々なレースで表彰台を勝ち取っているボードです。南カリフォルニアから発信されるBARKのパドルボードは、地球上で最も最先端のパドルボードです。

堀部 雄大選手、堀部 結里香選手がM20にて BARKプローンボードに乗り見事入賞！！

2023年M20でBARKのプローンボードに乗って52kmを見事走破し入賞を果たした日本人選手がいます。堀部雄大選手と堀部結里香選手は夫婦そろって完走し、そして入賞を果たした鉄人夫婦です。

雄大選手は40～50歳の部で5位、結里香選手は30歳以下で準優勝を果たしました。

今回2人はサーフテック社のBARKプローンボードを使用していました。
